Statement of Connie Mack IV, POWER! Coalition Chairman

“The Joint Select Committee’s meeting yesterday is hopefully the beginning to a fair and reasonable solution to the multi-employer pension plan (MEPP) crisis. Workers, retirees, employers and the American taxpayer are all impacted by the MEPP crisis and it’s important Congress take this seriously and work toward a solution that can pass.”

POWER! is a coalition of employers, workers, and retirees dedicated to achieving a long-term solution to the MEPP crisis that is fair and reasonable to all parties and the American taxpayer. For more information go to [www.pownow.net](http://www.pownow.net).
