Contact: Connie Mack, 202-684-3036

Statement of Connie Mack IV, POWER! Coalition Chairman, on the 6-13 Meeting of the
Joint Select Committee

“Employers of all sizes delivered a single simple message to the Congressional Joint Select Committee on Solvency of Multi-Employer Pension Plans (MEPP) at their meeting on June 13. Failure to act cannot be an option. It is imperative the Committee come forward with a solution that is fair and reasonable to retirees, workers, and employers, as well as the American taxpayer. Yesterday appears to represent a good first step in the right direction. However, the November 30 deadline for the Committee to come forward with a solution that can be passed and signed into law draws nearer every day. Millions of Americans are depending on the Committee to keep at it until that solution is developed.”

POWER! is a coalition of employers, workers, and retirees dedicated to achieving a long-term solution to the MEPP crisis that is fair and reasonable to all parties and the American taxpayer. For more information go to www.powrnow.net
